**Debra K. Davenport**  
Auditor General

The **Auditor General** is appointed by the Joint Legislative Audit Committee, a bipartisan committee composed of five senators and five representatives. Her mission is to provide independent and impartial information and specific recommendations to improve the operations of state and local government entities. To this end, she provides financial audits and accounting services to the State and political subdivisions, investigates possible misuse of public monies, and conducts performance audits of school districts, state agencies, and the programs they administer.

Members of the Arizona State Legislature

The Governing Board of  
Maricopa County Community College District

### **Compliance**

We have audited Maricopa County Community College District's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The District's major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

As described in item 10-101 in the accompanying Schedule of Findings and Questioned Costs, the District did not comply with requirements regarding activities allowed or unallowed, eligibility, and special tests and provisions that are applicable to its Student Financial Assistance Cluster. Compliance with such requirements is necessary, in our opinion, for the District to comply with the requirements applicable to that program.

In our opinion, except for the noncompliance described in the preceding paragraph, Maricopa County Community College District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

### **Internal Control over Compliance**

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the

requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified a deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item 10-101 to be a material weakness.

#### **Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the business-type activities and discretely presented component unit of Maricopa County Community College District as of and for the year ended June 30, 2010, and have issued our report thereon dated December 1, 2010. Our report was modified to include a reference to our reliance on other auditors. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Maricopa County Community College District's response to the finding identified in our audit is presented on pages 11 through 12. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the members of the Arizona State Legislature, the Governing Board, management, others within the District, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

Award Period: July 1, 2009 through June 30, 2010

Activities Allowed or Unallowed, Eligibility, Special Test and Provisions

Questioned Costs: Unknown

Criteria: In accordance with 34 CFR §600.21, the District must report institutional changes to the U.S. Department of Education no later than 10 days after the change occurs. Also, as required by 34 CFR §§668.4 and 668.8(k) and (l), student enrollment patterns should be aligned with the District's term schedules.

Condition and context: The District reported to the U.S. Department of Education (USDOE) that it failed to report in a timely manner the establishment of a new location operated by Rio Salado College and that it disbursed federal monies to students attending this location prior to reporting changes in the Rio Salado College's Program Participation Agreement (PPA). Specifically, the District established its Rio Salado College dental hygiene program location in 1998; however, it did not update and receive approval of this location in its PPA until January 6, 2011. The District reported that the PPA was not sufficiently updated to reflect information about certificate programs, site locations, and servicers. In addition, the District reported there may have been errors in awarding financial aid to Rio Salado College students as a result of student enrollment patterns that were not always aligned with the District's academic calendar. The District is working with the USDOE to resolve this matter.

Maricopa County Community College District  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2010

Effect: As a result of the self-reporting and the submission of the updated PPA, the USDOE has notified the District that Rio Salado College is now required to apply for and await approval of a new location before disbursing additional Title IV of the Higher Education Act funds to students attending that location. In addition, the District may be subject to a liability or a fine based on the violations. It was not practical to extend our auditing procedures sufficiently to determine questioned costs, if any, that may have resulted from this finding. This finding is a material weakness in internal control over compliance and material noncompliance with the Cluster's activities allowed or unallowed, eligibility, and special tests and provisions requirements.

Cause: The District did not have policies and procedures for updating the PPA for new programs and locations. In addition, Rio Salado College changed its academic calendar to allow enrollments to occur every week and did not anticipate that students' enrollment patterns could become unaligned with the standard term required for awarding and disbursing financial aid.

Recommendation: The District should establish and implement policies and procedures for updating PPAs during the approval process for new programs and locations. In addition, the District should establish a new term calendar having standard terms with modules for Rio Salado College. Finally, the District should determine the amount of federal assistance awarded to students in error, if any.

District Response: Concur

Corrective Action Planned:

The District has engaged a consultant to assist us with addressing the two issues noted by the auditors. First, the District has submitted an updated Program Participation Agreement (PPA) for Rio Salado College which has been approved by the US Department of Education (Department). We are working to provide additional information the Department requested as part of the PPA review. Additionally, the District has verified that all the other Colleges' PPAs are current. Second, Rio Salado College has corrected the academic calendar issue and is working with the Department and the consultant to determine the next steps to resolve this matter. The District has verified that none of the other colleges have the same or similar issues with the academic calendar.
